Dear Harrison,

This letter comes after four years of work you had done on behalf of my husband and me following the car accident he suffered on the 14th of February 2004.

I would like to thank you so much for the important amount of \$ 1.500.000 received as insurance payments but especially the way you have helped me pass this difficult period on my life.

Not only took you care of all insurance claims or insurance reluctance to pick up the different hospital charges, but I will always be grateful to you for your thoughtfulness and kindness you have shown me by immediately taking care of everything, thus removing all worries connected with the financial aspect of my husband illness.

Together with my husband we thank you for your kindness and care you showed us during these long four years as well for the important amount of money we received as payment for our suffering.

Wishing you the best and always grateful,

Christine Valmy Striscu
